It is helpful to write one's name into the clothes.

About pocket money:

In accordance with parents, we can pay pocket money. For older students it might be more suitable to open their own bank account.

When leaving into holidays at home

.. students are required to put all their things into a big box here so that the rooms can be cleaned. Students should be sufficiently disciplined not to collect too many things and clothes. They have space to store their bags, suitcases and clothes but of course, the amount cannot be the same as they might be used from home.
